

PROGRAMME

WITH THE SUPPORT OF

Symposium Biology and Humanities

« *How dialogue between basic science and humanities may tackle environmental changes and human frailty ?* »

National Museum for the History of Immigration

Tuesday, October 1st 2019
10 AM - 5 PM

10h-10h30

Welcome

Geneviève DERUMEAUX (IMRB, RHU CARMMA, Université Paris-Est Créteil)

& Marie-Albane de SUREMAIN (CESSMA, Université Paris-Est Créteil)

Jean-Luc DUBOIS-RANDÉ, President of Université Paris-Est Créteil

Michel WIEVIORKA, President of Fondation de la Maison des Sciences de l'Homme

Jorge BOCZKOWSKI, Director of Institut Mondor de Recherche Biomédicale

10h30-11h00

Patrick SAVIDAN (LIS, Université Paris-Est Créteil)

Connecting Inquiry and Value in Science

11h00-11h30

Isabelle COLL (LISA, Université Paris-Est Créteil)

Scientific and societal challenges of air quality

11h30-12h00

Robert BAROUKI (Université Paris Descartes)

The exposome: a useful concept

12h00-12h45

Keynote speaker

Elizabeth BLACKBURN, the 2009 Nobel Prize in Medicine

"A journey from looking down a microscope to out the window"

PROGRAMME

13H00-14H30

Break

14h30-15h00

Jean-Yves LE GALL (President of Centre National d'Etudes Spatiales, the French Space Agency)
A window on a changing world: the space climate observatory

15h00-15h30

Guillaume LACHENAL (médialab, Science Po, Paris)
Bridging history and biology. The example of the emergence of HIV in Africa

15h30-16h00

Philippe HUNEMAN (IHPST, CNRS, Université Paris I)
*Epistemic and non-epistemic values in science:
some examples from medicine and environmental sciences, and some hypotheses*

16h00-16h30

Karin SIPIDO (KU Leuven, Belgium)
Role of scientists in advocacy to tackle environmental changes and human frailty

16h30-17h00

Conclusion

17h00

Cocktail
